

Global Perspectives
Geography Unit Internet Assignment

Where in the World Did This Come From?

To conclude our unit on geography, we will spend two days in the library and one day in the classroom researching and identifying the information asked for.

Project:

In pairs, find at least **1 items from 15 different places** that we as consumers use (such as foods and clothing). For each item you will need to find the following information:

1. Name of the item
2. Country of origin
3. Product type (food, clothing, technology, etc.)
4. How it is used

Then, on a poster board, illustrate the 15 or more items in a creative manner, either drawing the object or finding a picture of it. Make sure that all four points of information are covered on the poster. Additionally, attach a world map to your poster (this will be provided to you) and identify/color the countries your product comes from.

This assignment is due: _____

Your name: _____

Your partner's name: _____
