

Global Perspectives Culture Project

Directions: As a group, your assignment is to create a poster board summary of your culture/civilization. Brief descriptions of your group should be typed (for example, “We live in the swamps and jungles near the Amazon River.”) and pictures, when available, should be used.

Areas to be covered:

- Name of culture (possibly the title of your poster board)
- Time period
- Original Habitat
- Living Quarters
- Power Structure
- 3 chosen areas (language, education, food, etc.)
- 1 additional project to be attached

Poster should be as descriptive, creative and colorful as possible. Neatness counts! All members are expected to contribute in some way, either by looking up information/pictures on the Internet, constructing poster, or completing additional project. Members will be anonymously graded by each other.

We will spend Thursday and Friday in the library. Additional time, if needed, will be spent in the classroom. Finished project is due_____.
