

Ch. 25-2 p. 638-642

The Industrial Revolution

Define:

Industrial Revolution (p. 633) -

Industrialization (p. 634) -

Urbanization -

Middle class -

See chart on page 640. Answer the following questions:

1. Which social class benefited most and which suffered the most from industrialization?

2. What were some of the advantages and disadvantages of industrialization? Name at least 3 of each.

See graph on page 641. Answer the following questions:

1. How many people did the city of Manchester gain between 1801 and 1831? How many did it gain between 1831 and 1871?

2. What does the engraving (drawing) show were the effects of such rapid growth?

List the activities you perform each day at the specified time:

5 am -

12 noon -

3pm -

6 pm -

9pm -

11 pm -

How does your day **compare** to that of a typical young person in England during the early 1800s?

Taking Notes: Create a pyramid listing the social classes in industrial England. List the types of laborers and professionals included in each group.
